One Solution For Everything

The Flat Screen Panel has functions that can support all your activities, like presentation, teaching in the school, and internal meeting in your office.

Meeting Room Presentation

Compared with traditional whiteboards and projectors, interactive flat panel display not only has exquisite display effect, smart interactivity and remote meeting function, but also supports wireless connection and screen sharing which removed the complex wiring. It has received highly preference and wide application in the conference machine market.

School Teaching

Interactive flat panel display has received great popularity based on its premium display effects, smart interactivity, annotation function, multimedia files playing, a large quantity of extensive applications, abundant internet source and remote teaching functions. It is becoming a strong assistant of teachers.
